- Soft Skills: Communication, Teamwork, Problem Solving, Time Management
- Languages: English, Bengali

Projects

Donate-Blood | Blood Donation Management System
Developed a blood donation web application with donor, volunteer, and admin roles, blood request workflows, and authentication. Tech: React, Node.js, Express, MongoDB, Better Auth.

Tutor-Booking | Full-Stack Booking Platform
Built a tutor discovery and booking system featuring tutor search, session reservations, JWT authentication, availability management, and role-based admin controls. Tech: React, Node.js, Express, MongoDB.

Healthcare Platform | Full-Stack Healthcare Application
Developed patient, doctor, and administrator workflows using PHP, Laravel, Inertia.js, React, and MySQL, including role-based access control and healthcare management features.

Keen Keeper | MERN Stack
Role: Full Stack Developer
Brief description: Developed a full-stack Online Shoping web application using React, Node.js, Express, and My-Sql. Implemented JWT authentication, role-based access, cart and order management, and built RESTful APIs. Deployed the application to Vercel for scalable performance.

Thesis / Research
"Hybrid BMI-Aware Diet Planning Chatbot Using Machine Learning and NLP-Based Intent Classification"

Competitions / Programming Contests

Team Leader – ICBC Programming Contest
International University of Business Agriculture and Technology (IUBAT)
Dhaka, Bangladesh | Year: 2022

- Led a 3-member team in a competitive programming contest.
- Coordinated problem-solving strategies and task distribution among team members.
- Strengthened leadership, analytical thinking, teamwork skills through programming.

Extracurricular Activities

- Team Leader, ICBC Programming Contest (IUBAT) – Competitive programming and team coordination

Internship

Full-Stack Web Development Intern | BD SOFT TECHNOLOGY
Duration: 3 months (Completed) | Project: Healthcare Platform
Developed healthcare modules for patient, doctor, and admin workflows using PHP, Laravel, Inertia.js, React, and MySQL; implemented role-based access control.
